

Mini Crawlers

Used Mini Crawler Fremont - We have designed a lot of Mobile Crane Operation programs at our Crane Training Schools. These programs are recommended for the experienced operator who needs re-certification or certification, and for inexperienced operator who is searching for a job in the business. Positions for crane operators are high due to their high pay. Crane operators are among the highest paid of any heavy equipment operator. Our Crane Operator training provides instruction for different mobile cranes. Course subject consists of Wire Rope, Crane Set-up, Lift Planning, Load Dynamics, Load Charts, Rigging, and Signaling. The Crane Training School program is suitable for operators, riggers and supervisors. Course materials consist of a manual and informative hand-outs. The safety guidebook that is illustrated consists of 100 to 250 pages, that depends on the course, of helpful and vital material. Course materials consist of load exercises and load charts for the crane with which the person training is working. Hands-On Safety Training will take up more than half of the course curriculum. The practical training section is the most helpful method to developing and improving personal skill levels. Only skilled journeyman crane instructors are chosen to teach the courses. Our instructors possess many years of practice in the business. Optional testing mechanisms are offered for all of our courses. Students will usually write tests both prior to and following training. A skills test is usually administered for programs which consist of H.O.S.T. Trainees would be tested and graded. We provide certified training programs for the following cranes: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Rigging / Signalperson Training and Certification; Articulated Boom / Knuckleboom Cranes; In-The Seat Training and Certification & Testing. Industry standards of practice are changing as new business requirements surface. There are constant updates to legislation and regulations. Improvements in technology and equipment continue to be made. Industry data collection and analysis identify changing trends. Members maintain the privilege of managing their certifications and training programs. Mobile device alerts keep members abreast of workplace and personal safety news.
